

LEE TO McKINLEY.

The Governor of South Dakota Demands Return of South Dakota Volunteers.

THEY ARE NOW IN THE PHILIPPINES.

Gov. Lee Declares in a Letter to the President That the Fight for Humanity Has Ended.

The South Dakota Volunteers Have Fulfilled Every Obligation They Owe to Their Country and Should Be Returned to Their Homes.

St. Paul, Minn., April 14.—A special to the Pioneer Press from Pierre, S. D., gives the text of a letter from Gov. Lee, of South Dakota, to President McKinley demanding the return of the South Dakota volunteers from the Philippines. He expresses his feeling of enlistment to fight for humanity against Spain, declares that such war has ended and his state feels that "the South Dakota volunteers have fulfilled every obligation which they owe to their country and its flag, and should be allowed to return home." He says: "We view their present or future retention as unconstitutional and a violation of law which calls for the organization into being, and feel sure that they will not be retained against the law, against the law and against the moral sense of the people of our state without offering some sound reason for so doing."

He knows of no war exigency at the present time, says congress has not declared war against the island of Luzon and that "the constitution does not permit your excellency nor any commission appointed by your excellency to make a declaration of war."

He declares the retention of the volunteers to the fundamental principles of this government, a violation of the declaration of independence, a repudiation of the theory upon which we engaged in the war with Spain, and entirely inconsistent with your excellency's splendid announcement respecting the policy to be pursued toward Cuba.

He is unable to "reconcile the slaughter of our soldiers in the Philippines with our code of political ethics or with the tenor of our Christian religion." He speaks of the volunteers as "impressed into a service to the purpose of which is the direct opposite of the motive which caused them to enlist."

A hole 150 feet in diameter showed the extent of the cavern. All attempts to locate the bottom of the crater were unavailing and some authorities believe it is at least 200 feet below the mouth of the crater. Further developments were awaited.

The Anniversary Held in the Metropolitan Opera House, New York, by the Democratic Club—Oratory and Flowers.

NEW YORK, April 14.—The dinner of the democratic club in honor of the anniversary of the birth of Thomas Jefferson, was held Thursday night at the Metropolitan opera house. Looking from the tiers to the floor of the vast dining hall the tables seemed like great beds of roses. The 200 tables on either side of the speakers' table. Either table was piled with a mass of roses and ferns intertwined. So abundant were the flowers that some of the guests were hardly able to see each other over the floral banks.

Swans and vases of alabaster held flowers; there were cornucopias of horns of plenty filled with flowers and fruit and the scene was set off with ribbons of cardinal silk.

The floor of the auditorium was raised to a level with that of the stage by a temporary floor making one rectangular room of immense size. The other tables were set in rows paralleled with Thirty-ninth and Fortieth streets. The guests of honor were at two tables set under the proscenium and at right angles to the other tables. The stage was set with gorgeous palace scene of the court of Louis XIV. Four great electric chandeliers lighted the picture. Conspicuously placed at the west end of the dining hall was the inscription: JEFFERSON. 1743-1826.

GERMANY UNEASY

She Wants the Commission Hurred to Samoa and Prompt Action Taken.

EXPRESSES SORROW FOR MASSACRE.

Great Britain Agrees to the Unanimity Rule and the Commission Will Proceed at Once.

If Found Guilty the German Government Will Approve of the Arrest of the Manager of the Plantation on Which Massacre Occurred.

BERLIN, April 14.—The United States embassy at noon Thursday gave out the following statement: "We have received from the foreign office an account of the latest conflict in Samoa. The German government expressed sympathy and took occasion to urge the adoption of the unanimity rule in the findings of the Samoa commission, in order that the German commissioner, Baron Speck von Sternberg, might sail for Samoa at the earliest moment possible. The German government urged that only the early arrival of the commission will prevent further serious bloodshed. Thursday morning Baron Von Biliow informed the American ambassador that Great Britain has at last agreed to the unanimity rule, the United States also agreeing, and that the commission can promptly proceed to the islands without delay."

The German press Thursday morning gives Wednesday's news calmly and mostly without comment. The

Colonge Gazette remarks: "We need not say that if the guilt of the massacre of the German plantation is proven, Germany will approve of his arrest and demand his punishment. We will not defend the behavior of a German abroad merely because he is a German."

The Cologne Gazette also admits that Dr. Raffel, the German president of the municipal council of Apia, acted illegally in closing the chief justice's office, and says: "The other two powers, we hope, will also admit the illegal acts of their representatives."

The Tagblatt calls the arrest of the German manager of the plantation in which the autobomb was blown up "illegal," saying: "Our council is the only competent judge."

The Lokai Anzeiger expresses the opinion that the affair shows the need of prompt action by the commission. A number of leading papers, like the Deutsche Zeitung, Schlesiensche Zeitung and Hanover Courier, point out the necessity of a larger navy and urge the hastening of the present increase in its strength and the adoption of an additional bill for the construction of other vessels.

The reinsurance interpellation on the subject of Samoa is signed by a majority of the center, right-center, conservatives and national liberals, and asks the government for information regarding the events in Samoa which have injured German interests seriously, and also requests information regarding the measures taken or intended to be taken by the government under the circumstances.

KAUTZ'S ACTIONS IN SAMOA.

As far as Set Forth in Official Dispatches They Are Approved by the Administration at Washington.

WASHINGTON, April 14.—Adm. Kautz's actions in Samoa, as far as they are set forth in the official dispatches, are approved. He was instructed by the last mail steamer from Auckland to avoid needless collisions, but to protect property and persons until the three treaty powers decided how to deal with the situation. No further instructions have yet been sent to him, and if any go forward by cable within the next 24 hours, which is the limit of time available if the outgoing steamer is to be caught at Auckland, they will be simply a repetition of former orders. Department officials point out that from accounts so far received the admiral seems to have acted in conjunction with the British forces only in pursuance of the policy of defense of foreign interests. It is expected that he will not abate his efforts to secure the restoration of peace and it is probable that when the high commission arrives at Apia it will find its work facilitated through the suppression of the rebellion.

The commissioners are not likely to start from San Francisco on the steamer of the 19th, as the instructions of the members have not been imparted.

On account of the ravages of caterpillars on the foliage last summer, it is believed that this year's maple sugar harvest in Vermont will be a total failure. The maple sugar season has begun, and the makers find the trees are sapless. Some think the trees are dead.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Half-Century Cough Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., TOLEDO, O.

Not one child dies where ten formerly died from croup. People have learned the value of One Minute Cough Cure and use it for severe lung and throat troubles. It immediately stops coughing. It never fails. Henry W. Ray, adjoining Postoffice.

In the embers of a small house at Mine Rock, near Somerset, N. J., last week, were found the charred remains of Benjamin Bush, almost 100 years old, and Catherine Bush, his housekeeper, over 70. They were reclined, and it is thought the high winds blew down their home, which caught fire and cremated the two inmates.
